

DEPARTMENT OF RADIOLOGY

NUCLEAR MEDICINE STUDIES THAT REQUIRE PATIENT PREPARATION

Study/Therapy	Required Time	Patient Preparation_
Cardiovascular System Myocardial perfusion, Tc-99m-sestamibi	4 – 5 Hours (possible multiday if patient is above 350 lbs)	Nothing by mouth after midnight no caffeine for 12 hou Hold cardiac meds**
Central Nervous System Cisternography	6 hr + 2 hr (2 day study)	Recent PT/PTT blood test
Endocrine System Octreotide Scan, MIBG	30 min + 1.5 hr (at 24 hr)	Possible bowl prep
Thyroid imaging and uptake, I-123	30 min + 45 min (at 24 hr)	Hold certain meds***
Thyroid imaging, Tc-99m	1 hr	Hold certain meds***
Thyroid cancer metastases, I-131	30 min + 1.5 hr (at 48 hr)	Hold certain meds***
Gastrointestinal System Esophageal transit study	1 hour	overnight fast
Gastric emptying study	4 hr	overnight fast
Gastro-esophageal reflux	1 hour +15 minutes (at 3 hour)	overnight fast
Hepatobiliary study	1 hr + delayed images possible	For gallbladder, fast 6 hr
Genitourinary System Renal Scan w/ACE inhibitors	1.5 hr	Hold ACE-inhibitor meds*

- (*) These studies are best done when the patient has not had certain medications or treatments for a period of time. If there are any questions, consult a nuclear medicine technologist or nuclear medicine physician.
 - * Should be off ACE-inhibitors
 - ** Should be off all Cardiac meds but bring these meds with them to the appointment
 - *** Off thyroid medications, should contact nuclear medicine if you are currently taking thyroid medications

Patient Preparation for I-123 and I-131 Studies

7 Days

Iodine Containing Substance

ACTH, adrenal steriods

Lugol's Solution, SSKI Topical Iodine Solutions Kelp Vitamins and Minerals containing Iodine Cough Medicines containing iodine	Time required off Drug 2 Weeks 2 Weeks 2 Weeks 2 Weeks 2 Weeks 2 Weeks
Previous Radiographic Exams	
IVP CT with Contrast Myelogram Angiogram	3 Weeks 4-8 Weeks 4-8 Weeks 4-8 Weeks
Thyroid Medications	
Thyroxine	6 weeks
* Levothyroxine, Synthroid, Levothyroid, Levoxly Triodothyonine *Liothyronin (Cytomel)	10 Days
Antithyroid Medications	
Propylthiouarcil (PTU) Methimazole, Tapazole	3 Days 3 Days
